

Tape and Label Applications Data

GENUINE PRODUCT—Protecting Integrity.

Tamper-evident labels provide an additional layer of protection to your products and therefore your brand. They provide physical evidence of opening by revealing a hidden message.

Our labels can provide a corporate message, validate warranty, protect against counterfeiting and provide product authenticity to your customers.

A tamper-evident strip can be applied across the closure of a carton, bottle lid, the seal of a container. Our tape can also be used around shrink wrapped pallets and packaging boxes for: Perfume, Aftershave, Alcohol, DVD's, Rechargeable Batteries, Cigarettes, Tobacco Pharmaceuticals, Electronics, Cosmetics, Camera's, Telephones, Computers and more.....

• PROVIDES AN INEXPENSIVE SOLUTION TO SECURE YOUR PRODUCTS AGAINST THEFT AND TAMPERING.

IT PROTECTION—Protecting your data

Non-Residue security labels are used to secure USB ports and disc drives, protecting businesses immediately against the threat of a virus, attack or unauthorised data exchanges. This threat has increased with the popularity of BYOD (bringing your own device to work) in the workplace.

Our Tamper-Evident labels are providing IT protection against piracy and privacy for businesses TODAY.

Our security seals can be permanent as well as non-residue and can be applied to CD and DVD cases, computers, cabinets, over USB ports and disc drives. Permanent residue labels can be used for the protection of data and intelligence in transit and storage in data centers.

Presently applications also include smart phone security—where a non-residue label is applied to the phone covering the front and back camera.

- ADDING AN INSTANT EXTRA LEVEL OF SECURITY WITH OUR TAPES AND LABELS PROVIDES A CLEAR, VISUAL INDICATION OF TAMPERING. ATHELYN CAN HELP VALIDATE WARRANTY ITEMS, REDUCE SHRINKAGE AND PROTECT COMPANY DATA QUICKLY.

AVIATION—Luggage, Aircraft & Cargo

Non-residue security labels are used to add security onboard to aircraft doors, interior panels, hatches, emergency equipment, catering trolleys and luggage.

Our permanent labels and tapes leave a mark on the surface when removed and are used to protect the safety of passengers, crew and planes.

This low cost security solution is supporting the aviation industry in applications including: routine maintenance, physical safety, food and catering requirements terrorism prevention and safety equipment inspection, to name just a few.

- DELIVERS POSITIVE CONTROL AND PROTECTION FROM CHECK IN -> BAGGAGE CLAIM. PROTECTING PASSENGERS, CREW AND CARGO FOR PRIVATE SECTOR, COMMERCIAL, MILITARY AND CARGO SECTOR

SIMPLE, SECURE, TRACK AND TRACE FEATURES INCLUDE:

- Individual barcodes and sequential numbers with receipt tabs to ensure cases can be tracked to individuals
- Whether used on luggage or aircraft interiors, the labels can be applied to the surface whilst the corresponding tag is affixed to control documents

Tape and Label Applications Data

RETAIL SECURITY—End to end supply Chain

Our tapes and labels are used when securing packaging from the manufacturer to the distribution center and on to store shelves.

The retail sector has unique and diverse needs with counterfeiting, theft, contamination and exposure from extended supply chains being a consideration. We can supply a robust, secure way to protect goods on route to market.

Tamper-evident permanent tapes on cartons and shrink wrap pallets delivers an additional layer of protection whether goods go to staging areas, repacking fulfilment centers, reverse logistics or straight out to stores.

- INEXPENSIVE, FAST SOLUTION TO SECURING SHIPMENTS THAT DO NOT INVITE THEFT
- OUR TAPES AND LABELS HELP KEEP WORKERS HONEST AND LESS LIKELY TO WALK AWAY WITH GOODS

PACKAGING—Products, Parcels & Pallets

Our tapes and labels are an excellent tool to help prevent theft, tampering and counterfeiting of goods in transit, regardless of the size and complexity of your package.

Our permanent tapes can be applied to pallet wrap, cargo crates, containers, cases, cartons and product packaging.

Our covert and overt tapes provide instant, clear, irreversible visual indications if a package has been tampered with. The sequential numbering feature can become embedded in your security program.

- EASY TO APPLY & PROTECTS PACKAGES THROUGH SHIPMENT AND HANDLING

COLD CHAIN SUPPLY—Boxes, Cartons & Pallets

Our permanent tapes and labels can validate temperature change with the use of irreversible thermochromic ink changing the colour of the label or tape.

These tapes and labels leave a mark on the surface applied to when removed.

Our non-residue security labels can also be used so packaging is not permanently marked for re-sale purposes.

Our tamper-evident tapes and labels are used for product validation within the distribution system with barcodes, QR references and sequential numbers

- PROVIDES “POSITIVE CONTROL” THROUGHOUT THE DISTRIBUTION SYSTEM
- SIMPLE, SECURE “TRACK AND TRACE” FEATURES, INCLUDING INDIVIDUAL BARCODES AND SEQUENTIAL NUMBERS
- INDIVIDUAL NUMBERS PLACED ON CARGO ALONG WITH MATCHING RECEIPTS TAB PLACED ON CONTROL TRANSPORT DOCUMENTS ENSURE A PROPER “CHAIN OF CUSTODY”
- LOADS CAN BE EASILY TRACKED TO A COMPANY OR LOCATION—RECORDING PILFERING

Tape and Label Applications Data

PHARMACEUTICAL—Packaging Integrity

Packaging is a critical tool to ensure pharmaceutical product safety. Using our tamper-evident tapes on your products and packaging helps to prevent theft or diversion. This also prevents the introduction of counterfeit products into your supply chain.

Voiding tamper-evident tapes and labels are used for quick, simple visual authentication on products, packaging as well as pallets.

Athelyn' can have manufactured security solutions that can be applied to cardboard, coated card, metal, plastic, polyethylene, glass and painted metal through a selection of different films and adhesives.

- PROTECTS BRANDS AND BUSINESSES BY SECURING THE INTEGRITY AND SAFETY OF YOUR PRODUCTS
- PREVENTS PILFERING & COUNTERFEITING
- WITHIN 60 SECONDS NON-REMOVABLE VOID MESSAGE IS DISPLAYED ON THE TAPE OR LABEL. THIS WILL COMPLY WITH THE EU COUNTERFEIT MEDICINES DIRECTIVE, EFFECTIVE FEB 2019

AGRICULTURE—Farming & Distribution

Our Non-Residue security labels are used to seal re-usable containers which reduces the risk of contamination being introduced into the food chain.

Permanent labels and tapes leave a mark on the surface of the container when removed. They are used to seal food and grain storage containers to protect product integrity.

Suitable for flexible surfaces as well as rigid: bags, drums, cartons and pallets providing mechanical security.

- PROVIDES "POSITIVE CONTROL" THROUGHOUT THE DISTRIBUTION SYSTEM
- SUPPORTS "FARM TO FORK" JOURNEY BY PROVIDING PROPER "CHAIN OF CUSTODY" THROUGH BARCODING AND/OR SEQUENTIAL NUMBERS WITH RECEIPT TAB.

We have the capability to have fully bespoke tapes and labels manufactured to your exact requirements. If you cannot find a suitable product for your usage please get in touch to discuss your tape or label
